

High Density Acoustic 1.0mm

Sound Reducing Polyethylene Foam Underlay for LVT flooring

Walking Sound

Impact Sound 23dB

Water Vapour Barrier

Underfloor Heating

CS0.5 < 100kPa

Absorbs Minor Floor Imperfection

HDPE film

LDPE high density foam layer

HDPE film

15 square meters per roll

The density of foam layer ~ 170 kg/m³

Reduction of impact sound under LVT flooring - 23 dB

Compressive strength at 0.5mm compression < 100 kPa

Thermal resistance - 0,022 m²K/W

S_d value ~ 100 m
