

PVC JOINT SEALING MATERIAL

Product description:

- Using the PVC concrete joint seal system is a fast economical way to seal concrete floor cut joints.
- Protection while construction work continues or as a permanent fixture.
- It is much less expensive than using silicon sealer and much faster to apply using the sealing joint roller machine.
- The PVC sealer is oil and chemical resistant.
- Standard color is black or grey. Other colors are available with 5000m minimum order per color.

DISK TYPE	DISK THICKNESS	PVC JOINT WIDTH (A)	ROLL LENGHT
DIAMOND CUT	2.8mm	4,0mm	300m
		4,2mm	300m
DIAMOND CUT	3.2mm	4,6mm	300m
ABRASIVE	4.0mm	5,2mm	200m

Technical data:

Material: PVC
 Type: BR 75
 Color: grey/black
 Density: 1446 kg/m³
 Push out test: ICQ-Po-10/11
 Tensile strength: ISO 527 N/mm²
